

SIXTY NORTH GOLD MINING LTD.

MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

The following is a discussion and analysis of the financial condition and operating results of Sixty North Gold Mining Ltd. ("Sixty North" or "the Company") and factors that are reasonably expected to impact future operations and results. This discussion and analysis should be read in conjunction with the Company's unaudited condensed interim financial statements for the three and nine months ended July 31, 2020 and the audited financial statements for the year ended October 31, 2019, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). All dollar amounts are expressed in Canadian dollars unless otherwise indicated. Additional information relating to the Company can be found on SEDAR at www.sedar.com. This management's discussion and analysis is dated September 29, 2020.

Some of the statements set forth are forward-looking statements relating to the Company's expected future operating results. The forward-looking information reflects the Company's current expectations and assumptions and are subject to a variety of risks and uncertainties. Although the Company believes that the assumptions on which the forward-looking information is based are reasonable, no assurance can be given that these assumptions will prove correct. Investors are advised to consider the risk factors identified under the heading "Risks and Uncertainties" in this report for a discussion of the factors that could cause the Company's actual results, performance and achievements to be materially different from any anticipated future results, performance or achievements expressed or implied by the forward-looking information.

Description of Business and Overview

The Company was incorporated on July 7, 2016, pursuant to the *Business Corporations Act* (British Columbia). On November 9, 2017, the Company also became registered as an extra-territorial corporation under Part XXI of the Business Corporations Act of the Northwest Territories.

The Company's head office is located at Suite 1909 – 108 West Cordova Street, Vancouver B.C. Canada V6B 0G5, and its registered and records offices are located at Suite 3200 - 650 West Georgia Street, Vancouver, British Columbia, V6B 4P7.

The principal business carried on and intended to be carried on by the Company is the acquisition, exploration and development of natural resource properties. Its principal exploration target is the exploration of gold in the Northwest Territories, where the Company holds an option to purchase an 80% interest, with the condition that the balance of 20% will be purchased for a 100% interest in the Mon Gold Property (the "Mon Gold Property" or "Property"), upon reaching funding obligations (see "Mon Gold Property" section below) .

The Company's shares are listed on the Canadian Securities Exchange under the symbol "SXTY". The Company also trades on the Frankfurt Stock Exchange under the symbol "2F4" and, on the OTC Pink Market in the United States under the symbol "SXNTF".

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. The future impact on the Company's ability to carry out its business operations is not currently determinable but management continues to monitor the situation.

MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

The Mon Gold Property

The Mon Gold Property is located 45 kilometres north of Yellowknife, Northwest Territories, Canada, and consists of 11 contiguous mining leases and 3 mineral claims comprising an aggregate of 1,536.92 acres.

By a restated mineral property earn-in agreement dated for reference June 14, 2017 (the "Agreement") among Sixty North and New Discovery Mines Ltd. ("NDM"), the Company acquired the exclusive right to earn ("earn-in") an 80% undivided interest in the Mon Gold property, subject to a prior restated royalty agreement between NDM and Giauque Holdings Ltd. (the "Royalty Holder"), which provides for a 2.0% net smelter royalty ("NSR") reserved in favour of the Royalty Holder.

On October 21, 2019, November 30, 2019, and April 24, 2020, the Company entered into an amended earn-in property agreements ("Amendment", "Second Amendment", and "Third Amendment") with NDM to revise the Company's right to earn an 80% interest in the Property, by incurring Expenditures of at least \$6,000,000 on the Property (of which over \$2,416,774 has already been incurred by July 31, 2020), which right has been revised to following:

- i) The Company shall pay NDM an extension fee of \$150,000 on or before June 30, 2020 (Paid);
- ii) On or before September 30, 2020, the Company shall deposit an additional \$1.5 million to NDM to be spent on the Property as agreed on the last approved budget; however, if substantial progress on a new equity financing for the Property is made by that time, the parties in good faith shall agree to extend this date to October 31, 2020;
- iii) On or before April 30, 2021, the Company shall deposit to NDM the balance of funds to make the Company's total investment in the Property equal to \$6 million; however, if substantial progress on a new equity financing for the Property is made by that time, the parties in good faith shall agree to extend this date to May 31, 2021; and
- iv) All other terms and conditions of the Restated Agreement, Amendment, and Second Amendment agreements not in conflict with the above shall remain in full force and effect.

In the event that the Company earns its 80% interest in the Property, then it will purchase the remaining 20% carried interest held by NDM by the issuance to NDM of the number of common shares of the Company equal to twenty-five percent of the total issued and outstanding shares of the Company at that time. NDM will also receive additional common shares of the Company to maintain its twenty-five percent interest of the total issued and outstanding shares of the Company, until the total expenditures specifically for the exploration and development of the A-Zone on the Property reaches a total of \$6,000,000. NDM is a private company that is 50% owned and controlled by the President and CEO of the Company.

In addition, the Royalty Agreement provides for a minimum annual advanced royalty payment to the Royalty Holder of US\$20,000, which commenced in January 2017, and is payable each year within 30 days of each calendar year end. Twenty percent of all advanced royalty payments may be deducted from the first year's NSR payments, and thereafter the balance of the advanced royalty payments may be deducted from future NSR payments.

SIXTY NORTH GOLD MINING LTD.

MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

At July 31, 2020, a total of \$2,711,191 has been spent on exploration and acquisition costs on the Mon Property, of which \$2,416,774 qualify as exploration expenditures incurred towards the earn-in. The Company has an outstanding amount due to NDM for exploration expenditures incurred on the Mon Property in the amount of \$27,951 at July 31, 2020. This amount is recorded as a current liability on the statement of financial position at July 31, 2020.

The Mon Gold Property is an exploration stage property with no mineral reserves or resources as of this report date.

A Technical Report dated December 11, 2017, on the Property was prepared by David DuPre, P. Geo., and Kevin Fitzpatrick, P.Eng., the “qualified persons”, as defined under National Instrument 43-101 (“NI 43-101”) and can be viewed on www.sedar.com.

Overall Performance and Results of Operations

Nine months ended July 31, 2020

The Company incurred a net loss of \$344,479 during the nine months ended July 31, 2020 compared to a net loss of \$390,479 in the nine months ended July 31, 2019. The significant changes were as follows:

- Corporate development costs were \$nil (2019 - \$24,000). The reduction is due to the termination of an agreement in the second quarter of 2019, that was entered into by the Company in 2018 with a consultant to provide business development and shareholder and investor communication services.
- General and administration expenses of \$21,015 (2019 - \$18,607) increased due to office rent expense and interest charges on over due invoices.
- Investor relation expenses increased to \$129,353 (2019 - \$102,797). The difference is primarily due to increase in consulting fee and marketing and communication expense.
- Professional fees of \$33,217 (2019 - \$39,717) include accounting, legal and audit expense. The reduction is due to the timing of the invoices rendered.
- Transfer agent and filing fees of \$29,758 (2019 - \$45,323) decreased due to the Company’s relisting from OTCQB to OTC Pink and due to the timing of the invoices rendered.
- Share-based payments of \$nil (2019 - \$57,560) relate to the stock options vested during the period.

Three months ended July 31, 2020

The Company incurred a net loss of \$125,106 during the three months ended July 31, 2020 compared to a net loss of \$124,904 in the three months ended July 31, 2019. The significant changes were as follows:

SIXTY NORTH GOLD MINING LTD.

MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

- General and administration expenses of \$4,303 (2019 - \$7,818) decreased with decrease in insurance expense.
- Investor relation expenses increased to \$44,973 (2019 - \$3,743). The difference is due to increase in marketing and communication expense.
- Professional fees of \$18,129 (2019 - \$12,246) include accounting, legal and audit expense. The reduction is due to the timing of invoices rendered.
- Transfer agent and filing fees of \$12,701 (2019 - \$10,918) increased with capital raising activities.

Liquidity and Solvency

As at July 31, 2020, the Company had cash of \$186,857 and working capital deficiency of \$105,341. The Company does not expect to generate revenues in the near future and will require additional funds to meet its commitments under the earn-in agreement with NDM and to continue operations. If the Company does not raise the required funds, it may not be able to meet its ongoing obligations. These circumstances may cast significant doubt as to the Company's ability to continue as a going concern and the appropriateness of the use of accounting principles applicable to a going concern.

During the period ended July 31, 2020, the primary uses of cash were operating activities - \$85,697 (2019 - \$157,370) and expenditures on the Mon Property - \$214,542 (2019 - \$273,757). The primary source of cash was issuance of shares for \$156,115 (2019 - \$431,619), net of issue cost, and share subscriptions of \$183,000 (2019 - \$nil).

As at July 31, 2020, a total of \$2,651,720 had been spent on exploration and acquisition, net of the MIP grant, on the Mon Property (\$294,417 of this relates to acquisition costs).

The Company is closely monitoring its cash requirements and evaluating various strategic and short-term alternatives.

MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

There is no guarantee that the Company will obtain further future funding, and the amount, timing and nature of financing may be materially impacted by the economic climate in capital markets.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements other than those described elsewhere in this report.

Critical Accounting Policies and Estimates

Certain carrying amounts of assets and liabilities require judgements, assumption and estimates as the basis for determining the stated amounts. Examples of significant estimates made by management include the determination of mineralized reserves, estimating the fair values of financial instruments, impairment of long-lived assets, reclamation and rehabilitation provisions, valuation allowances for future income tax assets and assumptions used for valuation of warrants and share-based compensation. Actual results may differ from those estimates.

A detailed summary of all of the Company's significant accounting policies is included in Note 3 to the annual audited financial statements for the year ended October 31, 2019.

Changes in Accounting Policies

Effective November 1, 2019, the Company adopted IFRS 16 Leases using the modified retrospective approach. The modified retrospective approach does not require restatement of prior period financial information as it recognizes the cumulative effect as an adjustment to opening retained earnings and applies the standard prospectively.

In applying IFRS 16 for the first time, the Company has used the following practical expedient permitted by the standard:

- the accounting for operating leases with a remaining lease term of less than 12 months as at November 1, 2019 as short-term leases.

Upon the adoption of IFRS 16, the Company adopted the following significant accounting policy effective November 1, 2019:

Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lease liability is recognized at the commencement of the lease term at the present value of the lease payments that are not paid at that date. At the commencement date, a corresponding right-of-use asset is recognized at the amount of the lease liability, adjusted for lease incentives received, retirement costs and initial direct costs. Depreciation is recognized on the right-of-use asset over the lease term. Interest expense is recognized on the lease liabilities using the effective interest rate method and payments are applied against the lease liability.

MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

Risks and Uncertainties

The Company does not own the Mon Gold Property, and only has a right to earn an interest therein pursuant to an option agreement. The Company must expend a total of \$6.0 million on the Mon Gold Property in order to acquire an 80% interest in the project, and then may acquire NDM's 20% interest by issuing shares, subject to a 2.0% net smelter returns royalty. There is no assurance that the Company's mineral exploration and development activities will result in any discoveries of commercial bodies of ore.

There is no assurance that additional funding will be available for further operations or to fulfill its obligations under the applicable agreements. If the Company is unsuccessful in raising further funds, it may not earn any interest in the Mon Gold Property.

Companies in the mineral and exploration and development industry are subject to many risks including, but not limited to, infrastructure, government regulations, environmental issues, metal prices and currency fluctuations and uninsured and litigation risks. There is no assurance that the Company will be able to establish a practical working relationship with any First Nations in the area which would allow it to ultimately develop the Property.

Furthermore, the availability of services such as drilling contractors and geological service companies, and/or the terms on which these services are provided, may be adversely affected by global economic impacts on such service providers. Adverse effects on the capital markets generally may make the raising of capital by equity or debt financing much more difficult, and the Company is dependent upon the capital markets to raise further financing.

Related Party Transactions

The Company defines key management personnel as officers and directors of the Company and/or entities controlled by them. During the three and nine months ended July 31, 2020, the Company incurred the following key management compensation charges:

subject to accelerated exercise provisions if the closing price of the shares is greater than \$0.15 per share for a period of at least ten consecutive trading days. The Company's directors and officers participated in the private placement. No value was attributed to the warrants' component of the units. The securities have a hold period of four months and one day restricting resale. In connection with this private placement, the Company paid a cash commission of \$8,800 and issued agent's compensation warrants to purchase up to 220,000 shares, exercisable at \$0.075 per common share for two years from the issue date. The fair value of the agent's warrants was estimated at \$5,739 and recorded as share issuance costs.

During the year ended October 31, 2019, fees to the Vice-President, Corporate Development of \$40,000 were settled by the issuance of 800,000 common shares at \$0.06 per share and \$22,500 were settled by the issuance of 300,000 common shares at \$0.05 per share. As the transaction involves a creditor that is also a shareholder of the Company acting in the capacity thereof, the resulting difference of \$500 was recognized in the statements of changes in equity.

During the year ended October 31, 2019, fees of \$15,000 to the Chief Financial Officer were settled by the issuance of 300,000 common shares at \$0.06 per share and \$22,500 were settled by the issuance of 300,000 common shares at \$0.05 per share. As the transaction involves a creditor that is also a shareholder of the Company acting in the capacity thereof, the resulting difference of \$4,500 was recognized in the statements of changes in equity.

During the year ended October 31, 2019, fees of \$22,500 to a director and former President & CEO (May 15 to September 30, 2019) were settled by issuance of 300,000 common shares at \$0.04 per share. Guarantees and Commitments

Any contractual commitments and guarantees provided are discussed in Note 11 – Commitments, Note 4 – Exploration and Evaluations Assets, and Note 10 - Related Party Transactions and Balances of the financial statements.

Financial Instruments and Risks

Fair Values and Classifications

The Company's financial instruments consist of cash and accounts payable. Financial instruments are classified into one of the following categories: FVTPL, FVTOCI, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instrument	Category	July 31, 2020	October 31, 2019
Cash	FVTPL	\$ 186,857	\$ 147,981
Accounts payable and accrued liabilities	Amortized cost	\$ 321,297	\$ 92,613

The Company measures certain financial instruments and other items at fair value. To determine the fair value, the Company uses the fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs market participants would use to value an asset or liability and are developed based on market data obtained from independent sources. Unobservable inputs are inputs based on assumptions about the factors market participants would use to value an asset or liability. The three levels of inputs that may be used to measure fair value are as follows:

Level 1 – Observable inputs such as quoted prices in active markets;

Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly;
and

Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurements. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

The fair value of cash is measured on the statement of financial position using level 1 of the fair value hierarchy. The fair values of accounts payable and due to contractor approximate their respective carrying values because of their immediate or short-term nature.

MANAGEMENT DISCUSSION AND ANALYSIS FOR THE THREE AND NINE MONTHS ENDED JULY 31, 2020

Financial Instrument Risk Exposure

The Company's financial instruments are exposed to certain financial risks, including credit risk, currency risk and liquidity risk.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash and accounts receivable. The carrying amount of the financial assets represents the maximum credit exposure. The Company limits its exposure to credit risk on cash by placing these financial instruments with reputable and major financial institutions.

(b) Currency risk

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to rate fluctuations is minimal. The Company does not have significant foreign currency denominated monetary liabilities.

(c) Liquidity risk

Liquidity risk is associated with the inability to meet obligations as they become due and is minimized by maintaining sufficient cash and deposit balances to cover operating and exploration costs over a reasonable future period.

Outstanding Share Data

The Company has authorized an unlimited number of common shares without par value.

At September 29, 2020, 89,603,332 common shares were issued and outstanding. 2,490,000 of these shares are held in escrow.

The outstanding warrants are as follows:

Number of Warrants	Exercise Price	Expiry Date

Management's Responsibility for Financial Statements

Information provided in this report, including the consolidated financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future value for certain assets or liabilities. Management believes that such estimates have been based on careful judgments and have been properly reflected in the consolidated financial statements. Management maintains a system of internal controls to provide reasonable assurance that the Company's assets are safeguarded and to facilitate the preparation of relevant and timely information.
