

## Mon Gold Property near Yellowknife, NWT, Canada

Mon Gold Property is a high-grade past producing (1989–1997) gold mine, from which 15,000 oz. of gold was produced from 15,000 tons of ore.

- ▶ To January 31, 2022, \$5.1 million has been funded into the project, for purchase of mining equipment, camp and supplies needed for mine development, winter road 2021, drilling below old stopes, geophysics and surface exploration in VMS and shear zones.
- ▶ High grade samples up to **688 g/t gold over 0.5m** have been recovered from the crown pillar.
- ▶ Metallurgical testing of a quarter tonne sample yielded **recoveries averaging 98.8%** at a grade of 158 gpt gold.
- ▶ Mon Gold Property is in the **Yellowknife Gold Belt**; past mining in this Belt exceeds 15 million ounces of gold at grades >0.5 oz./t, including the Con (6 m oz.), Giant (8 m oz.) and Discovery Mines (1 m oz. at 1 oz./t).
- ▶ The mineralization identified in the Mon A-Zone appears to be a viable exploration target for a “Discovery Mine” type of deposit.
- ▶ Built winter road and hauled major mining equipment, camp, and stores to site March 2021 and March 2022
- ▶ **Land Use Permit and Water License for mining and milling production at 100 tpd are in place – the Mon is the only gold project in the NWT permitted for production.**

- ▶ Volcanogenic Massive Sulphide (VMS), **gold shear zones, and nickel-cobalt- PGM** exploration opportunities on the property have demonstrated substantial additional potential.
- ▶ The company has an option to acquire a 100% interest in the **contiguous 1,902 hectare Hangstone Property** adjoining the Mon Property, with bulk mineable potential. The Mon Property shear zone and VMS targets can be projected onto the Hangstone Property.

### Planned Dates for A-Zone Key Operational and Corporate Milestones \*

#### 2022

- Complete acquisition of a 100% interest in the Mon Gold Project (in process June 2022)
- Expand the underground development from 213 m AMSL to elevation 177 m AMSL to open up an expected 30,000 tonnes of vein below the previous stopes
- Initiate preliminary work to develop the next level below this to elevation 165m AMSL (another 45 m below the current development), targeting an additional 25,000 tonnes of vein.
- Acquire mill equipment and mobilize to Yellowknife
- Mill and mine fully operational.

#### 2023

Mon Gold Property

- ▶ Easy 45 km to Mon Gold Property **from Yellowknife: 15 minutes by helicopter, float or ski plane.**

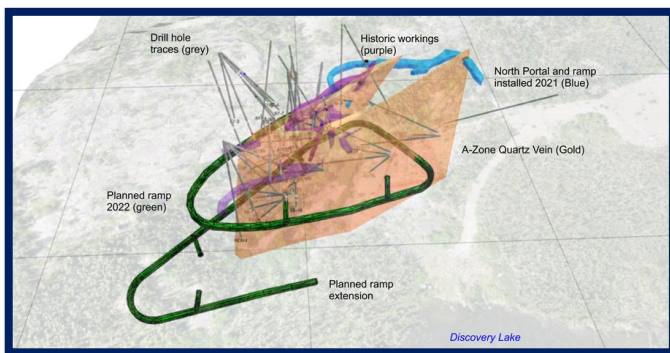

Market Cap \$7.8 m 2022-06-02
