

SIXTY NORTH GOLD TO CLOSE SECOND AND FINAL TRANCHE OF UNIT OFFERING

VANCOUVER, British Columbia -- (Newsfile Corp. – November 17, 2025) Sixty North Gold Mining Ltd. (CSE: SXTY, FKT: 2F40, OTC-Pink: SXNTF) (the “**Company**” or “**Sixty North Gold**”) is pleased to report that further to its news releases of October 21, 2025 and November 6, 2025, the Company intends to close the second and final tranche of the announced offering, which is expected to consist of 8,904,320 units for gross proceeds of \$979,475.20. The total gross proceeds from both tranches of the offering is \$1,649,969.20.

Each \$0.11 Unit is comprised of one common share (each, a “**Share**”) and one non-transferable common share purchase warrant (each, a “**Warrant**”) in the capital of the Company. Each Warrant will be exercisable to purchase one additional Share at a price of \$0.15 for a period of twenty-four (24) months from the Closing Date, subject to applicable securities laws and CSE policies.

The securities underlying the Units will be subject to a hold period legend restricting resale until four months and a day from their date of issuance.

Finder’s fees of \$76,758 in cash and 697,800 finder’s warrants were paid on portions of the second tranche of the financing, with the finder’s warrants bearing the same terms as the Warrants.

The net proceeds from the Offering will be used for further exploration and development of the Mon Gold Property located in NWT, and for the Company’s general working capital requirements.

About the Company

Sixty North Gold is developing mining operations for gold on its 100-per-cent-owned Mon Gold Project, which extracted 15,000 tonnes of ore to depths of only 15 metres below surface, recovering an estimated 15,000 ounces of gold in the 1990s (Company Technical Report NI 43-101, August 3, 2023 on SEDAR or <https://sixtynorthgold.com/projects/technical-report/>). The North Ramp has been reopened and has been extended to the target portion of the vein. The company plans to develop stopes in the East Limb, West Limb and DD Zone to extract and to feed a 100 tpd gravity-flotation mill.

Additional gold, silver and base metal targets occur on the property and will be explored and developed as warranted.

The Yellowknife gold camp hosts two mines that averaged 30 gpt gold or better (Discovery Mine with one million ounces of gold produced, and Sixty North Gold’s Mon Mine), and two that averaged 15 gpt or better for a total production of over 14 million ounces of gold (Con Mine and Giant Mine); (ref. Company Technical Report NI 43-101, August 3, 2023).
