

Restarting High-grade Gold Mining at the **Mon Gold Mine** in the Yellowknife Greenstone Belt, NWT

**SIXTY NORTH GOLD
MINING LTD.**

CSE: SXTY — FRANKFURT: 2F40 — OTC-PINK: SXNTF

Gold production with milling at 100 tpd is planned for 2027 *

- The Mon Gold Property is a 100% company-owned high-grade past producing (1989–1997) gold mine, from which 15,000 oz. of gold was produced from 15,000 tons of ore.
- Easy 45 km to Mon Gold Property from Yellowknife: 15 minutes by helicopter, float or ski plane.
- To July 31, 2026, over \$12.1 million for exploration and development has been funded into the project, for purchase of mining and milling equipment, camp and supplies needed for mine development, winter roads, drilling below old stopes, geophysics and surface exploration in VMS and shear zones.
- A \$3.6 million project loan was arranged in December 2025 to fund capital and operating costs to production.
- High grade samples up to 688 g/t gold over 0.5m have been recovered from the crown pillar that averages 116.2 gpt gold over 1.2m.
- Metallurgical testing of a quarter tonne sample yielded recoveries averaging 98.8% at a grade of 158 gpt gold.
- Mon Gold Property is in the middle of the Yellowknife Gold Belt; past mining in this Belt exceeds 15 million ounces of gold at grades >0.5 oz./t, including the Con (6 m oz.), Giant (8 m oz.) and Discovery Mines (1 m oz. at 1 oz./t).
- Land Use Permit and Water License for mining and milling production at 100 tpd are in place. Construction and operations will begin once all Management Plans are approved by regulators.
- Exploration potential on the property with silver-rich VMS deposits, large shear zone-hosted gold targets and the critical-element-enriched IOCG-style

Planned Operational Milestones *

- Complete regulatory approval of management plans.
- Construct and commission mill.
- Develop stopes for production
- Commence full mine and mill operations.

Mill similar to the one purchased by Sixty North Gold Mining Ltd.
